

PARAMEDIC ASSOCIATION OF NEW BRUNSWICK

Notice of Discipline Committee Decision

The Discipline Committee of the Paramedic Association of New Brunswick, by a decision dated December 4, 2023, found that a Member's conduct constituted professional misconduct when, as a primary care paramedic, the Member accepted a proposition from an advanced care paramedic to practice intubation when the patient already had a fully functional Igel™ supraglottic airway and attempted to insert an endotracheal tube, which was outside the Member's scope of practice

The Committee ordered that the Member:

1. be reprimanded for one (1) year;
2. pay costs in the amount of \$1,000; and
3. pay a fine in the amount of \$1,000.
