

PARAMEDIC ASSOCIATION OF NEW BRUNSWICK

Notice of Discipline Committee Decision

The Discipline Committee of the Paramedic Association of New Brunswick, by a decision dated December 4, 2023, found that a Member's conduct constituted professional misconduct when the Member changed a functioning airway device just for another paramedic to practice a skill and not because it would improve the patient's outcome, and allowed a primary care paramedic to attempt a skill outside their scope of practice.

The Committee ordered that the Member:

1. be reprimanded for one (1) year;
2. pay costs in the amount of \$1,000; and
3. pay a fine in the amount of \$1,000.
